

3 mm shaver blades

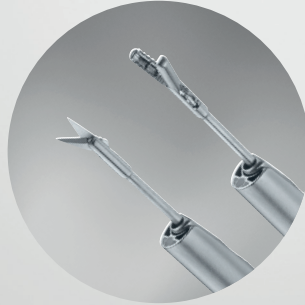

3 mm CLICKLINE instruments

Bipolar coagulation electrode

5 Fr. instruments

GYN 91 1.0 09/2023/A-E

The cost-efficient and versatile solution for the outpatient setting

Small diameter. Great possibilities: The new 5 mm hysteroscope

- Minimal outer diameter with rod lens quality
- Robust 3 mm instruments with large grasping and/or cutting capacity*
- Fully reusable hysteroscopic tissue removal system with the Intrauterine BIGATTI Shaver (IBS®)

*compared to 5 Fr. instruments
